

National Safe Boating Week

Your Guide to a Safe, Smooth Rental Day

We're excited to welcome you to the water! Before you launch, follow this checklist to make sure you and your group are prepared for a stress-free trip. With Stellar's booking tools and Rastrac's GPS tracking, we've got your experience—and your safety—covered from dock to dock.

What to Do Before Arrival

- **Watch the safety video** (link in your booking confirmation)
This helps you feel confident behind the wheel and keeps everyone on board safer.
- **Complete the digital waiver**
Required for participation - complete this online ahead of time to save time at check in.
- **Review boating rules and your GPS safety zone**
Your route may include no-wake zones and restricted areas. Rastrac technology will alert our team if you're nearing an off-limits area or driving unsafely.

What to Bring

- 1 Valid photo ID**
Required at check-in.
- 2 Fully charged phone**
Keep it on board for safety updates, weather alerts, or contacting staff.
- 3 Sunscreen, hat, and sun-safe clothing**
Protect yourself from UV rays on the water.
- 4 Dry bag or waterproof case**
To safely store phones, wallets, keys, and essentials.
- 5 Towels and a change of clothes**
You'll thank us later.
- 6 Reusable water bottle and light snacks**
Stay hydrated and energized (check your operator's policy on food and drink).

How Rastrac Helps Keep You Safe

- **GPS tracking** so staff can assist quickly in an emergency
- **Geofence alerts** that notify staff if your vessel enters restricted zones
- **Speed notifications** to keep operations smooth and safe for everyone
